# MASTER GERMINATION TESTER

FOR  
FIELD  
VEGETABLE  
FLOWER  
TREE  
SEEDS

SIMPLE  
EFFICIENT  
RELIABLE  
ALWAYS READY

**Price \$3.50 per set, post-paid for U. S.**

COMPOSED of an attractive flat dish, a porous disc with surface divided, to facilitate counting, in 10 sections of 10 compartments and ventilated clear glass bell, the Tester presents an attractive appearance, and placed in office, store, or window, draws the public's attention; it demonstrates the good growth of your seed.

Seeds placed on the disc and kept moist by suction from water in the dish, germinate, in room temperature, more quickly than in other more elaborate and costly devices. Do not expose to the sun which causes sweat.

Keep all the parts clean, particularly the porous disc.

This Tester is used in the most renowned seed laboratories. We ourselves use it.

**Price \$3.50—postage prepaid.**
